BioBridge 2026 — Official One-Pager Template

Hosted by MARABANU, StartupTN and KSR College of Technology. Save as PDF, max 5 MB, named TeamName_StatementCode.pdf

Team name	
Statement code	
Category (track)	
College / institution	
City / district, State	
Team lead name	
Team lead email / phone	
Team size (2-4)	

1. Problem statement chosen

Quote the statement code and title. For a wildcard entry, state your self-proposed title.

2. Problem context and need

Who is affected, how large is the gap, and what evidence supports it?

3. Proposed solution

Your core idea, the biology or technology involved, and how it differs from existing options.

4. Method and workplan

Key experiments, datasets, prototypes or models, and milestones across the four mentoring weekends.

5. Feasibility, resources and biosafety

Facilities, reagents, compute or partners needed. Note biosafety, ethics or regulatory considerations.

6. Expected impact and next steps

Measurable outcome you aim for, and how the work could scale beyond the hackathon.

7. Team strengths

One line per member: name, degree/branch/year, and what they bring to this problem.

8. References (optional)

Up to three key papers, datasets or reports.

Keep the whole submission to one page. Additional pages are not evaluated.
